February/2016	July/2016	Dreamgirls Musical Play	Emcee/ Lawyer	In 2016, my school organized the musical play "Dreamgirls" as part of the annual school performance. I had not expect any role whatsoever so it was a pleasant surprise for me when I had been told that I was slated to be the emcee of the play with a supporting role as a lawyer. The training for the play had taught me much on important issues such as punctuality, always enunciating my words and to be just less nervous in general. The training, opening night and matinee show were all very memorable for me in many ways and memories that I look back fondly. The play itself broke several box office records in the school and was received well by many, setting multiple records for it that has not been broken since.
March/2017	March/2017	2017 APSS Interclass Debates	1st runner-up	During March 2017, my school organized an interclass debate tournament for all Secondary 4 students as part of its annual English Week celebration. Each team consisted of three speakers which were the first, second speakers and the whip. The knockout format was used and begun from a round of 16. My team and I managed to finish as 1st runner-up in what was a notable surprise for us. The debate, which was my first, exposed me to the realities in the world of debating. As my role of the whip throughout the rounds, I learned on the go to always be impartial in concluding arguments, how to be eloquent and ways to properly articulate my thoughts and argument points. The experience was an enriching one for me and one that I will always cherish.
August/2020	August/2021	Chess Club	President	In the role of president of the chess club at my university, I have helped to organize activities and tournaments, chair a small body of committee members for the club and even conduct complimentary chess training sessions for members of the club. Having had national level playing experience under my belt, the process of teaching and providing insight on chess is nothing short of new for me. But the process of leading the club, from management aspects to resolving issues has been an eye-opening experience for me. Albeit being the president, I was always open to feedback or opinions, even if at times it would be differing than mine as I always wanted to try to hear from different perspectives and be made aware in the case that better alternatives could have been taken up or if I had done a mistake. My tenure as president of Taylor's University Chess Club is one that I am honoured to have held.
